

Paula Hawrysz for Vice-President Communications

Good Morning NASA Colleagues

Today I am asking you to vote for me for the NASA position of Vice-President Communications. I have served on the Communications Committee for the past 4 years and I am very familiar with the requirements of the committee and the position of vice-president. In addition, for the past 5 years I have served as a representative for the School of Applied Sciences and Technology.

I have been participating on the NASA Legislation Committee editing and reviewing NASA Constitutional and Policy Bylaws. I believe it is very important to ensure these documents are inclusive and apply to all members of the union. I will continue to work towards improving the bylaws by updating them with more current language and applications.

As the VP Communications I will enable openness and transparency across all of NASA's leadership and membership. I will assist the president and other table officers with upholding and interpreting the Collective Agreement. I will also make certain the needs and recommendations of our members are brought forward for the next bargaining cycle.

I will work toward ensuring a relevant and engaging publication of the Intercom.

I have been a big supporter of the Share the Warmth Campaign and will continue to do so.

I believe the website needs to be more engaging and user friendly so updating it will be one of my first tasks. Within the website I would like to see a secure feature that will allow communication among members where they can share their experiences, both good and bad, in a safe and unhindered way.

I know I am the best candidate for this position! It is time for a positive change in the NASA Executive!
